In almost every hamlet—every neighborhood—there are living examples of what Liquozone can do. Wherever you are, you need not go far to find some one who has been helped by it. Talk to some of those cured ones; perhaps your own friends are among them. Ask if they advise you to try Liquozone. Or let us buy you a bottle, and learn its power for yourself. If you need help, please don't wait longer; don't stay sick. Let us show to you—as we have to millions—what Liquozone can do. What Liquozone Is. The virtues of Liquozone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to carry into the system a powerful tonic-germicide. Ontsact with Liquozone kills any form

Jucident Illustrating How It Manifests Itself in Looking After Hens as Well as Sheep.

DOG'S HERDING INSTINCT.

The way the instinct for herding comes out in sheep dogs is wonderful, says a New York Sun writer. I once had a young collie given to me. He was only six months old and had never received any training or seen other dogs managing a band of sheep.

I had gone out of sheep at the time , and there was nothing about the ranch, apparently, for him to do. The puppy moped about for a week or ten days. There were the hens!

From that day on he never failed to herd the hens regularly. He would be on the watch for them when they emerged from their house on the side of the gumbo bank after feeding in the morning and would assume charge of them for the rest of the day.

Collecting them in front of him, he would drive them, a clucking, waddling, protesting band, out about half a mile after insects or pecked at the weeds and grass he sauntered about on the outskirts, keeping a vigilant eye on every pullet and rocster. And punctually an hour before sun-

set he would gather them up into a compact little group and drive them home. This self-appointed task he performed with the greatest system of thoroughness, displaying all the highest gifts of the sheep dog-fidelity, judgment, tact, conscience. He was a most engaging little rascal,

Consumption

There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Millions of people throughout the world are living and in good

health on one lung. ¶ From time immemorial the doctors prescribed cod liver oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They
